- Provide detailed information on your search topic:
 - In your own words, describe in detail the concepts or subjects you want us to search.
 - Include synonyms, keywords, and acronyms. Define terms that have special meanings.
 - *For Chemical Structure Searches Only*
 Include the elected species or structures, keywords, synonyms, acronyms, and registry numbers
 - *For Sequence Searches Only*

Include all pertinent information (parent, child, divisional, or issued patent numbers) along with the appropriate serial number.

- *For Foreign Patent Family Searches Only* Include the country name and patent number.
- Provide examples or give us relevant citations, authors, etc., if known.
- FAX or send the abstract, pertinent claims (not all of the claims), drawings, or chemical structures to your EIC or branch library.

I would like to have a search of claims 1 and 47 of the 5/20/05 claim
set. In particular, the activity recited in claim 1 is characteristic
of proteosome proteolytic enzyme inhibitors (e.g., LLnL, ZLLL; see
page 74 of the specification) and ubiquitin ligase inhibitors (e.g. ,
H-Leu-Ala-OH or H-His-Ala-OH; see page 81 of the specification). I am
interested in any disclosure of AAV in conjunction with any
proteosome inhibitor, ubiquitin ligase inhibitor or compound that
would reasonably be expected to have those activities. Thanks.
